

Application No. 10/692,180

Supplemental Amendment After Final under 37 C.F.R. 1.116 dated February 17, 2005

Reply to Office Action mailed November 30, 2004

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (currently amended): A method of conveying fibrous insulation material comprising the steps of:

providing an air flow stream;

selectively introducing fibrous insulation material into the air flow stream whereby the material can be selectively conveyed for application as insulation;

sensing the actual air flow stream velocity; and,

comparing the actual air flow stream velocity with a desired air stream velocity and selectively adjusting the air flow stream in response to a differential between the actual and the desired air flow stream velocities; and,

wherein during the step of adjusting the air flow stream, a portion of the air stream is selectively allowed to escape to the atmosphere.

Claim 2 (original): The method of claim 1 further comprising the step of selectively adjusting the rate of introducing fibrous insulation material to the air flow stream in response to a differential between the actual and desired air flow stream velocities.

Claim 3 (original): The method of claim 1 further comprising the step of sensing the actual pressure in the air flow stream and comparing the actual pressure in the air flow stream with a desired pressure and selectively adjusting the rate of introducing fibrous insulation material into the air flow stream.

Claim 4 (cancelled).

Claim 5 (original): The method of claim 1 wherein a variable speed blower provides the air flow stream and wherein, during the step of adjusting the air flow stream, the blower speed is
